Case No VLS010234

02/10/2025 This case was accepted by VLS

27/11/2025 The case concerned the claim against Stellantis FPW9.55535/03 for which it is claimed that market general technology to support the claim is not widely available.
In response the Lubricant Marketer provided evidence that the product was a rebrand of a product carrying a formal approval against the July 2023 version of Stellantis specification and therefore the claim is valid.
VLS accepted the evidence from the Lubricant Marketer and closed the investigation and the case which will not be subject to a six-month review as there is no case to answer.
